

AREA PREPARATION SHEET

In order to ensure a more efficient and timely installation and to avoid any additional charges, it is essential that the area be prepared in advance of the arrival of our crew. Please take note of the following:

General Preparations

- Please clear all surfaces and areas where work will be done. Remove all items from tubs, showers and counters.
- Please move and cover all furniture and misc. items (including pictures on walls) 8-10 feet from work area.
- Tubs, showers and walls should be as clean as possible. If necessary, scrub down the surfaces with an abrasive cleanser to remove soap film buildup.
- Please remain out of the work area while preparation is in progress.

Refinishing

- Please repair any leaky faucets prior to work.
- If you are **not** replacing the shower fixtures or shower doors, the installer will mask around existing fixtures and tracks **only**.
- Please place all plants, animals, birds, etc. in another room with the door closed (large aquariums need not be moved, but must be covered). Furthermore, any doors leading to adjacent rooms should be closed.
- Please remove any wall hangings and other decorations out of the immediate work areas.
- No one other than Pacific Bath Refinishing employees are allowed in the house while refinishing is in progress. No exceptions to this rule will be considered.
- Please allow the area to air dry ventilate for a minimum of five (5) hours before re-entry. People with respiratory conditions, allergies, or other medical necessities should remain out of the house for a minimum of 24 hours to avoid upset.
- Please make necessary arrangements given that the item(s) being refinished will be unavailable for use for at least 36 hours.
- Damage to surrounding walls, paint and wallpaper may occur due to masking tape; any repair(s) will be the responsibility of the owner. Pacific Bath Refinishing does not take responsibility for this damage.
- Any area preparation required by our crew will result in additional charges.**

Pacific Bath Refinishing thanks you for your cooperation. It will allow us to do our job quickly and effectively. We know you will be pleased with the results. Please call with any questions:
