

BATHTUB AND COUNTER TOP REFINISHING

AREA PREPARATION SHEET

Prior to refinishing your counter and/or bathtub, it is essential that the area be prepared in advance of the work. Please Note:

General Preparations

1. Please clear all surfaces and areas where work will be done. Remove all items from tubs, showers and counters.
2. Please move and cover all furniture and misc. items (including pictures on walls) 8-10 feet from work area.
3. Tubs, showers and walls should be as clean as possible. If necessary, scrub down the surfaces with an abrasive cleanser to remove soap film buildup.
4. Please remain out of the work area while preparation is in progress.

Refinishing

1. No people or pets/animals can be in the residence during the refinishing process and 4 to 6 hours after completion of work. Please place plants and fish in another room with the door closed (large aquariums need not be moved but must be covered.) Doors leading to nearby rooms should be closed.
2. Please remove any wall hangings, and other decorations out of the immediate work area.
3. No one other than PBR company employees can be in the unit while refinishing is in progress. No exceptions to this rule will be considered.
4. Please allow the area to air dry, ventilate for a minimum of five (5) hours before re-entry. People with respiratory conditions, allergies, or other medical issues may consider being out of the house for a minimum of 24 hours to avoid upset.
5. Please make necessary arrangements. The item(s) being refinished will be unavailable for use for at least 24 -48 hours.

Thank you for your cooperation, we know you will be pleased with the results.

Should you have any questions, please contact Pacific Bath Refinishing at:
